Dallas, WI / Viking Brewing Co. Oktoberfest Kubb Tournament

The weather forecast kept some teams away, but the strong showed and played from 11am to just before 6pm. Teams came from WI and MN. The pitches were set up between the softball field that was home to several cannon blows throughout the day, a craft area where Amish sold their food and crafts, and a homemade lefse stand. Just down the street, the world's longest brat was grilled and the world's largest stein of beer served hundreds of people. The weather consisted of mist a couple times during the day and a constant fall wind. The Swedish language filled the air by the father-son team of Sweden. Kubb de Grace made a run in the elimination round after losing all of their matches in the round-robin. Red Herron and Kanelbullarna (the cinnamon rolls) made it to the final, with Red Herron winning the the first and third game of the best of three final match. A Viking mug made by a local potter was awarded to Team Herron and the top three teams won medals.

Thanks to all. See you next year on the first Saturday in October.
